Carried

Resolution No. 2016-372

Moved by: Jeff Marshall Seconded by: Les Rowley Whereas access to affordable and reliable broadband networks is an important part of everyday life and;

Whereas communities outside urban centres face challenges in accessing internet service levels comparable to those in cities due to factors such as remote location and challenging terrain and;

Whereas numerous Broadband projects were delaying in 2015 and then cancelled by FedNor in 2016 in favour of waiting for the national Connecting Canadians Broadband funding criteria to be announced and;

Whereas many of the cancelled Broadband projects already had committed NOHFC and Internet Service Provider partner funding and although backbone and

institutional connectivity is crucial for a modern digital economy, the last mile opportunity that existed in these projects that have been cancelled is equally as important and;

Whereas FedNor's mandate is to support regional collaboration that will enhance Community economic development, business growth, competitiveness and innovation and;

Whereas access to Broadband is key to economic, education, social and health development;

Now Therefore Be it Resolved that the Municipality of the Township of Perry requests that because FedNor has developed a strong network of Broadband advocates and local Northern Ontario intelligence, that the Minister of Innovation, Science and Economic Development reviews the decision that no longer permits FedNor to fund Broadband initiatives and that the Broadband projects that have been cancelled all across Northern Ontario, be reinstated and reviewed for potential funding.
