

The Corporation of The Township of Perry
Tender No. 2018-01
Tandem Plow Truck

ADDENDUM NO.1

ISSUE DATE: March 21, 2018

1.0 GENERAL

This addendum forms part of the contract documents and is to be read, interpreted and coordinated with all other parts. The cost of all contained herein is to be included in the contract sum. The following revisions supersede the information contained in the original drawings and specifications issued for the above-named project to the extent referenced and shall become part thereof.

Acknowledge receipt of this addendum by inserting its number and date in Section 4 – Addenda Acknowledgement of the Bid documents.

Question and Answer Format:

Conveyor Specifications: Page 22 states:

The fully automated chain tensioner will eliminate the requirement for any manual chain tension adjusting mechanisms such as conventional threaded rod and nut tensioners, or hydraulic grease ram tensioners.

Automated chain tensioner system must be provided – no exception.

Q1. Would the Township consider the use of grease cylinder chain take up system?

A1. The Township maintains the its requirement that Automated chain tensioner system must be provided – no exception

Plow Harness Specifications: Page 31 states:

One single locking shaft will be manually removed prior to performing the tilt function – dual load bearing pin designs to unlock front harness will not be accepted.

Q2. Would the Township also consider allowing the independent pins to unlock the front harness?

A2. The Township would allow the independent pins to unlock the front harness.
